

Message From the Mayor:

There is no doubt that the strength of a community is dictated largely by the ability of small businesses to thrive, create jobs, and provide residents with the goods they desire and the services they require. With this thought in mind I am proud to offer you this complimentary Carteret Business Directory for 2011-2012. The Directory features hundreds of businesses located within our town and a few from the surrounding area that offer unique services to Carteret residents.

From the very beginning, supporting local business has been a cornerstone of my Administration. To this end, we have worked closely with the Carteret Business Partnership to pursue initiatives such as low interest loans, marketing services, and utilizing the tax benefits of the Urban Enterprise Zone (UEZ) program to attract and retain businesses. The Directory is yet another project undertaken by the Borough to advance Carteret's strong reputation as a great place to live and do business.

There have been a number of recent developments that will also be of great benefit to our community. Our UEZ designation was recently renewed and will continue to provide consumers with excellent benefits while shopping and utilizing local services. UEZ designation also affords the Borough valuable financial resources towards a variety of local projects, which is a vital component of our efforts to build a better Carteret. My administration will continue to work with government at all levels to make sure that we receive the resources necessary to continue to improve the economic viability of the Borough, without placing further burdens on our residents.

Although businesses have worked hard to survive in the wake of one of the worst economic downturns in our nation's history, there is still much work to be done. Together, we can continue to build on the many positive accomplishments of recent years. Previous editions of this publication have become valuable reference tools in homes across Carteret and have played an important role in making sure our residents consider Carteret businesses first.

It is our sincere hope to further Carteret's strong tradition as THE place to do business and this directory takes us one step closer to accomplishing that goal. As a community, we are all working to build a better Carteret and we hope that you will continue to join us in that mission.

Sincerely,

Daniel J. Reiman
Mayor, Borough of Carteret

Carteret – Destination Business

Looking for the competitive edge to help your business grow and thrive? Carteret has the answer. Carteret's Urban Enterprise Program (UEZ) designation provides participating businesses with an advantage by providing UEZ funded project programs, incentives and tax benefits - your business competitive edge.

Carteret UEZ Program and private sector partner, Carteret Business Partnership, Inc., provide public/private sector resources that fund our Small Business Programs. Carteret Small Business Programs include business incentives, tax benefits, matching grants for new sign and facade and awning building improvements, start-up/expansion grants, marketing grants and low interest loans in partnership with Investors Savings Bank. In addition to the Carteret Small Business Programs, managed by the Carteret Office of Economic Development, diverse business assistance programs and financing options are offered through SCORE, SBA and UCEDC, which encourage business growth and stimulate the dynamic Carteret business environment.

Carteret Business Partnership, Inc. dedicates over \$1 million in private sector funding to manage the business environment along with the Carteret UEZ Program incentives and tax benefits to participating businesses. These programs are highly successful and have served as a catalyst for \$30 million in capital investments in our commercial properties. Nearly one-hundred businesses participate in the Carteret UEZ and support over 2,600 full time jobs.

Carteret UEZ Program has attracted more that \$700 million in private investment, while in excess of \$6 million have been dedicated to Carteret projects, including streetscape enhancement programs and the construction of the Carteret Health and Wellness Center on Cooke Avenue, slated for construction completion in the summer of 2011,

Carteret UEZ Business Advantages

The UEZ Program offers participating businesses many incentives that encourage business growth and stimulate local economies. Program details include:

- Sales tax revenues generated by UEZ businesses are dedicated for use within the zones for economic development projects.
- \$6 million reduced sales tax collected by Carteret retailers since 1995 has been approved for \$6 million in Carteret Economic Development Projects.
- Retail businesses participating in the UEZ program can charge half the standard sales tax rate on certain purchases.
- In addition, UEZ businesses may enjoy tax exemptions on certain purchases and manufacturers may qualify for sales tax exemption on their energy and utility consumption when they meet specified employment and other criteria.
- For each new permanent full-time employee hired, businesses may receive a one-time \$1,500 tax credit.
- Employers may also benefit from subsidized unemployment insurance costs for certain employees who earn less than \$4,500/quarter.
- The UEZ Program allows a tax credit against the Corporate Business Tax up to eight percent of qualified investments within the zone. Also, businesses may be eligible for priority financial assistance.
